

## **Nurse Practitioner Program Faculty Clinical Guidelines**

### **The Clinical Faculty Member:**

1. Provides students with course descriptions, objectives, and responsibilities of student, preceptor, and faculty prior to each course.
2. Provides clinical rotation schedule to preceptors in set clinical areas prior to start of clinical rotation or term.
3. Provides course orientation material to preceptors prior to start of clinical rotation or term.
4. Collaborates with students to develop individualized clinical objectives and experiences.
5. Assists students in securing preceptors.
6. Communicates regularly and addresses concerns and clinical issues, as needed, with the preceptor, student, and lead faculty member.
7. Reviews and provides constructive feedback on progress notes from clinical experiences.
8. Participates in final evaluation of students' clinical performance with input from preceptor.
9. Collects, reviews, and forwards to designated College faculty/staff clinical site and preceptor evaluations at conclusion of each rotation or term.
10. Communicates student feedback to preceptors at conclusion of each term or sooner, if necessary.
